SAWS

Altendorf Sliding Table Saws

From the durability of our entry-level to our most advanced CNC-controlled sliding table saws, Altendorf offers a solution that's perfect for you! Here are a few of the reasons why you should consider Altendorf:

- #1 sellers of Sliders in the U.S.A. and worldwide
- inventor of the sliding table saw concept in 1906
- 7 out of 10 sliding table saws sold throughout the world are Altendorfs with over 100,000 sold
- German precision and virtually maintenance free
- first cut is your last cut
- focused on development and manufacture of only one product to insure excellence...sliding table saws

EDGEBANDERS

Brandt Edgebanders

Available in a vast array of models from entry-level to high-production, Brandt has automatic single-sided edgebanders for every size shop.

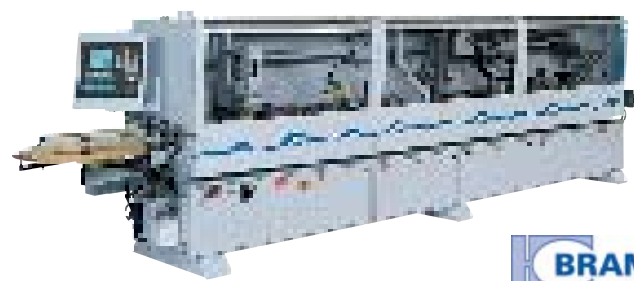

- #1 market leader for edgebanders in the U.S.A. and worldwide
- Brandt produces one product, edgebanders, for 40 years
- German precision

Holzma CNC Beam Saw

Altendorf America is proud to introduce the HPP 250 by Holzma. This beam saw integrates cutting efficiencies and machine durability previously not found in entry to mid-range production capacity beam saws.

- producing saws for over 30 years
- specialize in development and production of beam saws
- cutting-edge technology
- excellent price value
- agile, vibration-free carriage with the Silent Drive system
- able to integrate with most systems
- central side pressure device

- high-quality output easily achieved -- no hand touch-up required
- excellent results with all types of banding material
- quick and easy changeovers
- user and maintenance friendly
- state-of-the-art electronics, with many models PC-controlled

www.altendorfamerica.com

Altendorf America can help determine the right manufacturing system for your shop. We have integrated systems for flow-based manufacturing, nested-based manufacturing, and traditional manufacturing to achieve maximum efficiency, dependability and most importantly, profitability.

WIDE BELT SANDERS

Bütfering Wide Belt Sanders

The key to competing today is to achieve quality excellence at affordable prices. Bütfering should be your first sanding choice, available in entry-level through four-head sanders.

- #1 leader for wide belt sanders in most markets worldwide
- consistently produces sander-to-finish room quality
- finished products are excellent in appearance and free from defects

- reliable, energy-saving, high precision, labor-reducing ... all describe the Bütfering value
- full product range for solid wood and veneer sanding
- patented segmented pad system available for veneer sanding
- quick and easy set-up

CNC MACHINE CENTERS

Weeke CNC Machining Centers

Every model of machining center provided by Weeke insures quality-produced parts. The easy-to-understand software, flexible fixturing system, and Stiles support are unbeatable.

- #1 market leader in the U.S.A.
- application-tailored; value-engineered
- intuitive safety and operation
- powerful WoodWOP Parts Programming software
- superior drilling block technology
- rigid, dependable construction
