

Digi-Family Products

Digi-Scale™ General Purpose Measuring Systems

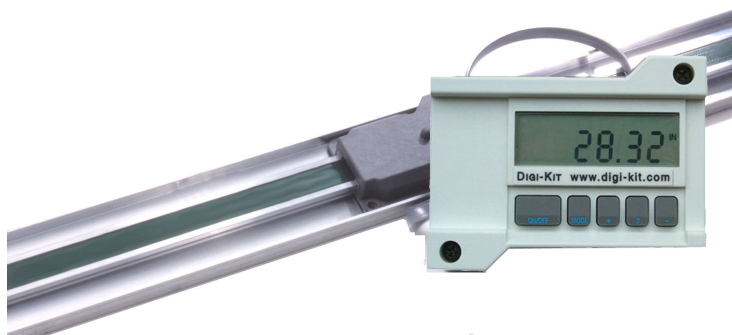

Digi-Scale Model 10

Digi-Scales are a family of low cost measuring systems for applications requiring digital precision and repeatability beyond a tape measure but without the associated cost of precision linear encoders.

- **2 Models:**
Model 10 for measurements up to 6 inches with a remote Digital Display
Model 20 for measurements up to 4 or 8 feet with a remote Digital Display
- **Power:**
Model 10 and Model 20 Digi-Scales operate on 2AA Batteries for up to 1 year
- **Easy Operation:**
Front panel buttons for Zero, + or - Offsets, and Units Mode.

Model 10 and Model 20 Specifications
